

# Feedback and Next Steps

## Please provide your feedback

Thank you for taking the time to learn more about the proposed Ballyleagry Solar Farm.

We would encourage everyone with an interest in the project to give us their feedback. To do this you can use the following methods:

Website:  
[www.ballyleagrysolarfarm.com](http://www.ballyleagrysolarfarm.com)  
(live from 20th February – 13th March 2025)

Ballyleagry Solar Farm  
Belmont  
Titanic Suites  
55-59 Adelaide Street  
Belfast  
BT2 8FE  
[ballyleagrysolarfarm@belmont.online](mailto:ballyleagrysolarfarm@belmont.online)

To be considered during the design process, feedback must be received by Thursday 13th March 2025.

If you have any queries regarding the information presented as part of this community consultation process, please contact us directly using the details provided.

Belmont - ABO Energy's communication and engagement partner on this project - can also be contacted via telephone on 028 9072 6059 between the hours of 10am – 4pm, Monday – Friday.

Please note: Any comments made to ABO Energy and/or the project team during this pre-application community consultation process are not representations to the planning authority. If a formal planning application is submitted, local advertisement and neighbour notification will take place and there will be an opportunity to make representations to the planning authority at that time.

## Next steps

Your feedback will be considered in detail as work progresses towards finalising our designs and collating all the relevant planning application documents.

It is intended that a full planning application will be submitted to Causeway Coast and Glens Borough Council in spring 2025. The Council will then process and decide the outcome of the application.

If planning permission is granted and all other necessary consents are achieved, it is anticipated that the project will take approximately 9-12 months to construct. The date at which the project becomes operational will be dependent on any grid connection offer.

When the project is decommissioned, all structures will be removed and the land restored.
